

# Introduction

VAN F. BELKNAP CO., INC. has been in business for over 57 years. During that time we have provided our customers with total service and top quality torque wrenches, adapters and miscellaneous attachments for our torque wrenches.

We have maintained our original purpose in designing tools that will withstand the abuse of assembly line, maintenance and repair usage. While the quality of our designs and products are well known, the professional service after the sale has long been a Belknap trademark.

Our customers recognize the quality of our products and while they may never need the tooling life our tools are capable of, it is still there – just in case they do! You may never need the

service we freely offer but it is immediately available. The reputation and trust we have developed over the years is important to Van F. Belknap Co., Inc. and we intend to keep it that way.

We design and develop hundreds of special tools each year for use in the automotive, agricultural, petrochemical, aerospace and electronics industries. We do this as part of the service that has made Belknap a valued supplier to large and small companies. Our in-house machine shop is dedicated for “special” jobs for our customers. That is why we respond in 24 hours. Our research and development is constantly working on new ideas with the latest technology available to introduce to industry even more advanced torque tools and attachments.

Our fully equipped Calibration Lab performs constant “life cycle” tests on our products because we want to know their total capabilities. Quality Control is not just another term to us – it demands performance from the end product. Our Quality Control Manual is complete, it sets the focus. Further, our Repair Department is a full service department. We can repair, service and calibrate most any make of torque wrench. Certifications of Accuracy, traceable to the National Institute of Standards & Technology (NIST) are furnished with each repaired torque wrench, upon request.

We welcome your call to us. Let us prove to you why your trust in Van F. Belknap Co., Inc. is warranted and justified.

## GUARANTEE

VAN F. BELKNAP CO., INC. tools are guaranteed to perform the work for which they are designed, and to provide service for as long as is consistent with ordinary wear. Any tools found defective in workmanship or material and returned to the factory with transportation charges pre-paid will be replaced, repaired or credited at current prices as deemed by us, provided it has been used for the purpose for which the tool was designed. Our liability under our guarantee is limited to the foregoing. Special tools not included in our current price list are not covered by this guarantee. Tools that have been ground or altered in any manner by the user from their original design are not covered by this guarantee.

## SAFETY GUIDELINES

- Do not use “cheater bars” on any tool.
- Always select the proper tool for the job.
- Always wear eye protection when using any tool.
- Periodically check calibration on tools and testers.
- Always use safety precautions.
